Subject: RE: Children at protests

Julie crafted something to have the CAS messaging put off until later this afternoon to work in concert with our stronger messaging. PLT are aware that this will coming out today and are prepared to address it as it is also mentioned in the Federal Emergencies Act.

I saw draft release that CAS had proposed last week. It would have been highly inflammatory at that time. Not so much now.

Do we REALLY believe there are 100 kids in the mix? Heard that in the media, credited to OPS.

Yes, my understanding is that ther will also be a release by CAS later today with similar messaging. I will ensure our on ground PLT are aware.

Good morning!

I wish we had been in on the \$5000 or up to five years for Take Your Kids to the Protest Day!

The Ottawa Coms lead is talking about developing another round of messaging, focussed on EMCPA aspects.

I "assume" PLT will be verbally delivering a warning about the children issue under the Emergencies Act.
